

KOZMINSKI UNIVERSITY

Kozminski University on the 18th of November 2015 is organizing for the first time the Portuguese Day/ Feira de Portugal. Portugal being one of the fastest developing countries in Europe, with interesting economic structure, strong position in the educational market and unusual culture is the top destination country for our mobility programs. Each year we enlarge the cooperation with Portuguese universities and companies observing huge students' interest in this country.

Therefore we would like to present to our students, alumni, teachers and administrative staff the culture of Portugal, customs, achievements, educational and job possibilities.

The main goal of the event is to share the information about the Portuguese companies which are present on the Polish labor market. Students will be able to recognize the Portuguese brands and get to know more information about possible job opportunities.

The International Relations Office will present the academic offer of Portuguese Universities that Kozminski University cooperates with. There will be virtual exhibition made of pictures taken by students who went for exchange program to Portugal.

Very important part will be the "meeting" with Portuguese" cinematography. We will screen few movies made by Portuguese directors and some by non-Portuguese artists.

Kozminski University students will prepare some typical Portuguese snacks and the fado music along with the decorations will make the unforgettable atmosphere of the Day.
